Education

University of Texas Rio Grande Valley — Edinburg, TX
Bachelor of Science in Computer Science — *Expected May 2028*

Technical Skills

Languages: C++, Java, JavaScript, Python, SQL, HTML/CSS, GDScript
Frameworks and Runtime: Express.js, React, Node.js
Tools: Git, GitHub, MySQL, Linux command line, SSH, VS Code, Godot, Blender

Projects

MusicNuke | *JavaScript, Node.js, Express.js, Spotify API* | musicnuke.vercel.app — 2026

- Implemented Spotify OAuth login and callback routes to authorize access to a user's playlist data.
- Integrated the Spotify Web API to retrieve and display the authenticated user's playlists.
- Configured environment variables with dotenv and excluded the local configuration file from version control.

Items REST API | *JavaScript, Node.js, Express.js* — In progress

- Developed an Express GET endpoint to return an in-memory collection of items as JSON.
- Added minimum-damage filtering using a query parameter, numeric conversion, and JavaScript array filtering.

3D Rocket Game | *Godot, GDScript, Blender*

- Designed and programmed a 3D rocket-launch simulation with custom physics using Godot Engine.
- Modeled and animated assets in Blender, optimizing polygon count for real-time performance.

Experience

Customer Service Associate — November 2023 – Present
The Home Depot — *Mission, TX*

- Assist customers with product selection and issue resolution, coordinating with associates across departments.
- Train and onboard new associates on store procedures and customer service responsibilities.
- Earned four Homer Awards recognizing contributions to customer service and teamwork.

Robotics Instructor — Sept. 2024 – March 2025
Code4Bots — *San Antonio, TX*

- Instructed 20+ students in engineering and Python-based robotics programming using LEGO Mindstorms.
- Developed lessons on sensors, logic, and control systems; guided teams in debugging code for automated movement and tasks.
